One summer evening, his twelve-year-old classmate, Lynne Harper, asked for a lift to the nearby highway on his bicycle and Steve agreed. Unfortunately, that made Steve the last person known to see Lynne alive. His world collapsed around him when he was arrested and then convicted of killing Lynne Harper. The penalty at the time was death by hanging. Although the sentence was changed to life in prison, Steve suffered for years behind bars for a murder he didn't commit. When his case gained national attention, the Supreme Court of Canada reviewed the evidence -- and confirmed his conviction. It took over forty years and a determination to prove his innocence for him to finally clear his name. He has since received an apology and compensation for his ordeal. In this book, young readers will discover how an innocent boy was presumed guilty by the justice system, and how in the end, that same justice system, prodded by Truscott and his lawyers, was able to acknowledge the terrible wrong done to him. Elephants rarely breed in captivity and are not considered domesticated, yet they interact with people regularly and adapt to various environments. Too social and sagacious to be objects, too strange to be human, too captive to truly be wild, but too wild to be domesticated—where do elephants fall in our understanding of nature? In *Wildlife in the Anthropocene*, Jamie Lorimer argues that the idea of nature as a pure and timeless place characterized by the absence of humans has come to an end. But life goes on. Wildlife inhabits everywhere and is on the move; Lorimer proposes the concept of wildlife as a replacement for nature. Offering a thorough appraisal of the Anthropocene—an era in which human actions affect and influence all life and all systems on our planet—Lorimer unpacks its implications for changing definitions of nature and the politics of wildlife conservation. *Wildlife in the Anthropocene* examines rewilding, the impacts of wildlife films, human relationships with charismatic species, and urban wildlife. Analyzing scientific papers, policy documents, and popular media, as well as a decade of fieldwork, Lorimer explores the new interconnections between science, politics, and neoliberal capitalism that the Anthropocene demands of wildlife conservation. Imagining conservation in a world where humans are geological actors entangled within and responsible for powerful, unstable, and unpredictable planetary forces, this work nurtures a future environmentalism that is more hopeful and democratic.

From her first assignment in 1998 to explore an increase in the number of missing women to the harrowing 2002 interrogation of convicted serial killer Robert Pickton, Lori Shenher tells a story of massive police failure—failure of the police to use the information about Pickton available to them, failure to understand the dark world of drug addiction and sex work, and failure to save more women from their killer. Shenher explains how police unwillingness to believe the women were missing or murdered, jurisdictional squabbles, and a fear of tunnel vision conspired to leave women unprotected and vulnerable to a serial killer nearly three years after she first received a tip that Pickton could be responsible. She unflinchingly reveals her own pain and psychological distress as a result of these events, which left her unable to work with or trust the police and the criminal justice system. That Lonely Section of Hell reveals the deeper truths behind the causes of this tragedy and the myriad ways the system—and society—failed to protect vulnerable people.

On a cold winter's morning, Lorimer Black, an insurance adjustor -- young, good-looking, on the rise -- goes to keep a perfectly ordinary appointment only to find a

hanged man. His life is about to be turned upside down and in directions he never imagined. The elements at play: A beautiful actress with whom he finds himself falling in love after a quick glimpse of her in a passing taxi ... an odd, new, business associate whose hiring, firing and rehiring make little sense ... a rock musician whose loss -- in this case of his mind -- may be "adjusted" by the insurance company. What ties it all together: a web of fraud in which virtually everyone he knows is somewhat involved, a web in which he finds himself being increasingly entangled.

THE MILLION-COPY BESTSELLING DETECTIVE SERIES 'One of the best is Alex Gray' Literary Review 'Intensely exciting and atmospheric' Alexander McCall Smith 'Move over Rebus' Daily Mirror Two murders, twenty years apart. Time for revenge . . . _____ When the body of a red-haired young man is washed up on the shore of the beautiful Isle of Mull, Detective Superintendent Lorimer's tranquil holiday away from the gritty streets of Glasgow is rudely interrupted. The body has been bound with twine in a ghoulishly unnatural position and strongly reminds Lorimer of another murder: a twenty year old Glasgow case that he failed to solve as a newly fledged detective constable and

which has haunted him ever since. As local cop DI Stevie Crozier takes charge of the island murder investigation, Lorimer tries to avoid stepping on her toes. But as the similarities between the young man's death and his cold case grow more obvious, Lorimer realises that there could be a serial killer on the loose after all these years. As the action switches dramatically between the Mull murder and the Glasgow cold case twenty years earlier, Lorimer tries desperately to catch a cold-hearted killer. Has someone got away with murder for decades? Whether you've read them all, or whether you're coming to Alex Gray's highly acclaimed Lorimer series for the very first time, this is the perfect, page-turning winter read if you love Ann Cleeves, Val McDermid or Ian Rankin. _____
