of race and representation in young adult speculative fiction (YASF). The collection considers how characters of color are represented in YASF, how they contribute to and

participate in speculative worlds, how race affects or influences the structures of speculative worlds, and how race and racial ideologies are implicated in YASF. This

collection also examines how race and racism are discussed in YASF or if, indeed, race and racism are discussed at all. Essays explore such notable and popular works as the Divergent

do continue to

collection  
examines how  
race and racism  
are represented in

the genre and considers how hierarchies of race are reinscribed in some texts and transgressed in others.

Contributors point toward the potential of YASF to address and
