History and Contemporary Issues

Contemporary Consumption, Consumers and Marketing: Cases from Generations Y and Z explores current consumer, consumption and marketing cases and issues, posing questions that complement, extend and challenge established marketing theory while keeping in mind megatrends such as climate crisis, economic inequality and digital connectivity. It also considers how such major changes affect consumer societies, cultures and individuals, especially those from Generations Y and Z. Each chapter is built around a theme that encapsulates current theoretical and professional debates around consumption, consumers and marketing. Examples and up-to-date case studies throughout the book

explore how brands are adapting to current circumstances across Generations X, Y and Z and investigate the state of marketing at a time of flux. This book is essential reading for undergraduates, postgraduates and practitioners interested in marketing and consumer behaviour.

Outlines and Highlights for Contemporary Mathematics for Business and Consumers by Robert Brechner, Isbn

This second edition of Contemporary Issues in Marketing and Consumer Behaviour has been completely revised and updated to keep pace with the latest developments, exploring fresh new themes in brand cultures, postmodernism, gender, ethics and globalisation. Topics new to this edition include: * the moralised brandscape; * the politics of consumption; * the spaces and places of marketing; and * the relationship between marketing and psychoanalysis. This popular text successfully links marketing theory with practice, locating marketing ideas and applications within wider global, social and economic contexts. Written by three experts in the field, this title fills a gap in a growing market interested in these contemporary issues. Mapping neatly to a one-semester module, it provides a complete off-the-shelf teaching package for masters, MBA and advanced undergraduate modules in marketing and consumer behaviour and a useful resource for dissertation study at both undergraduate and postgraduate levels. We live in times of increasing world uncertainty. Consumer culture in Asia has embodied such precariousness, with their unprecedented states of both prosperity and vulnerability. Works in this volume examine the consumer cultures that exist in today's precarious Asia. They do this through culturally oriented, critical consumer research. How deeply has the consumer precariousness in Asia been intertwined with the sociohistorical patterning of consumption including class, gender, and other social categories? How do these problematics affect consumers' identity projects, consumer rituals, and marketplace cultures? How is consumer precariousness aggravated by the governmentality of the superpower? How does the changing landscape of inter-Asian and global popular culture impact consumer culture in these nations? Together, the authors in this volume attempt to answer these questions through consumer research within the paradigm known as consumer culture theory (CCT). Since most CCT inquiry has been in Western contexts, this volume augments the existing knowledge. It presents the most current, critical, historical, and material consumer studies focused on Asia. This volume will be of interest to seasoned CCT researchers and academics, for anyone new to CCT, and for postgraduate students interested in CCT or writing a consumer culture-related thesis.
