Rising young comedian Moshe Kasher is lucky to be alive. He started using drugs when he was just 12. At that point, he had already been in psychoanalysis for 8 years. By the time he was 15, he had been in and out of several mental institutions, drifting from therapy to rehab to arrest to...you get the picture. But KASHER IN THE RYE is not an "eye opener" to the horrors of addiction. It's a hilarious memoir about the absurdity of it all. When he was a young boy, Kasher's mother took him on a vacation to the West Coast. Well it was more like an abduction. Only not officially. She stole them away from their father and they moved to Oakland , California. That's where the real fun begins, in the war zone of Oakland Public Schools. He was more than just out of control-his mother walked him around on a leash, which he chewed through and ran away. Those early years read like part Augusten Burroughs, part David Sedaris, with a touch of Jim Carrol...but a lot more Jewish. In fact, Kasher later spends time in a Brooklyn Hasidic community. Then came addiction... Brutally honest and laugh-out-loud funny, Kasher's first literary endeavor finds humor in even the most horrifying situations.

Naseeruddin Shah's sparkling memoir of his early years, 'from zero to thirty-two', spans his extraordinary journey from a feudal hamlet near Meerut, to Catholic schools in Nainital and Ajmer, and finally to stage and film stardom in Mumbai. Along the way, he recounts his passages through Aligarh University, the National School of Drama and the Film and Television Institute of India, where his luck finally began to change. And Then One Day tells a compelling tale, written with rare honesty and consummate elegance, leavened with tongue-in-cheek humour. There are moving portraits of family members, darkly funny accounts of his school days, and vivid cameos of directors and actors he has worked with, among them Ebrahim Alkazi, Shyam Benegal, Girish Karnad, Om Puri and Shabana Azmi. The accounts of his struggle to earn a living through acting, his experiments with the craft, his love affairs, his early marriage, his successes and failures are narrated with remarkable frankness and objective self-assessment. Brimming with delightful anecdotes as well as poignant, often painful revelations, this book is a tour de force.

In Mordin On Time, Nick Mordin sets out his method for answering the most fundamental question facing punters in any race, namely: which is the fastest horse? He was timing the sections of races with a stop watch, estimating wind strength and direction, adjusting for movements of running rails, using projected times and calculating average times years before the best-selling American books on speed rating were published. This new edition incorporates much new material, including standard times for all Irish racecourses (plus the major French ones). Mordin On Time enables the reader to construct their own speed ratings wherever they live.

"Local editors Schaper and Horwitz have assembled a noteworthy collection of noir-infused stories mixed with laughter...The Akashic noir short-story anthologies are avidly sought and make ideal samplers for regional mystery collecting." --*Library Journal* **"The best pieces in the collection turn the clichés of the genre on their head . . . and despite the unseemly subject matter, the stories are often surprisingly funny."** --*City Pages (Minneapolis)* **Brand-new stories from John Jodzio, Tom Kaczynski, and Peter Schilling, Jr., in addition to the original volume's stories by David Housewright, Steve Thayer, Judith Guest, Mary Logue, Bruce Rubenstein, K.J. Erickson, William Kent Krueger, Ellen Hart, Brad Zellar, Mary Sharratt, Pete Hautman, Larry Millett, Quinton Skinner, Gary Bush, and Chris Everheart. "St. Paul was originally called Pig's Eye's Landing and was named after Pig's Eye Parrant--trapper, moonshiner, and proprietor of the most popular drinking establishment on the Mississippi. Traders, river rats, missionaries, soldiers, land speculators, fur trappers, and Indian agents congregated in his establishment and made their deals. When Minnesota became a territory in 1849, the town leaders, realizing that a place called Pig's Eye might not inspire civic confidence, changed the name to St. Paul, after the largest church in the city . . . Across the river, Minneapolis has its own sordid story. By the turn of the twentieth century it was considered one of the most crooked cities in the nation. Mayor Albert Alonzo Ames, with the assistance of the chief of police, his brother Fred, ran a city so corrupt that according to Lincoln Steffans its 'deliberateness, invention, and avarice has never been equaled.' As recently as the mid-'90s, Minneapolis was called 'Murderopolis' due to a rash of killings that occurred over a long hot summer . . . Every city has its share of crime, but what makes the Twin Cities unique may be that we have more than our share of good writers to chronicle it. They are homegrown and they know the territory--how the cities look from the inside, out . . ."**

"As novelist and poet Andrei Codrescu points out in the essay that accompanies this selection of photographs from the Getty Museum's collection, Evans's photographs are the work of an artist whose temperament was distinctly at odds with Beals's impassioned rhetoric. Evans's photographs of Cuba were made by a young, still maturing artist who - as Codrescu argues - was just beginning to combine his early, formalist aesthetic with the social concerns that would figure prominently in his later work."--*Jacket.*

Kadence Mulligan's star was rising. And nobody believes Lauren when she claims she had nothing to do with the disappearance. Or the blood evidence... DIVMore than 2,000 former slaves provide first-person accounts in blunt, simple language about their lives in bondage. Illuminating, often startling information about southern life before, during, and after the Civil War. /div [This] introductory textbook examines theories of personality, starting from the viewpoint that there are eight basic aspects to personality: psychoanalytic, ego, biological, behaviorist, cognitive, trait, humanistic, and interactionist. Later chapters apply these aspects to individual differences such as those of gender and culture. Summaries after each chapter encapsulate key theorists and concepts discussed. -http://www.bn.com.

Precalculus with Limits: A Graphing Approach, AP* Edition

This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been cus tomarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the in terest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

...a message to the Black Youth.This is a compilation of individual essays written during the summer-fall of 1992. The essays are designed to inspire thought within the Black Mind. These writings are primarily targeted toward the Black Youth of this day, of which I am a part of. I am not a Master of these teachings, but these teachings I wish to Master.They say that my generation is not intelligent enough to read a book. I say that They are wrong. It is just that They are not writing about anything of interest that is relevant to our lives!And when They do write something, they have to write in the perfect King's English to impress their Harvard Professors! Here we are with a book in one hand, and a dictionary in the other, trying to understand what in the hell the author is talking about!If you have got something to say, just say it! We are not impressed by your 27-letter words, or your Shakespearean style of writing. The Black Youth of today don't give a damn about Shakespeare!!! This ain't no damn poetry contest! Wear are dealing with the life, blood, and salvation of our entire Black Nation!If you want to reach the People, you have to embrace us where we are, and then take us where we need to go. So, these writings are from my generation and for my generation with respect and love.If no one will teach, love and guide us, then we will teach love and guide ourselves.Peace.

George Simling has grown up in the city-state of Illyria, an enclave of logic and reason founded as a refuge from the Reaction, a wave of religious fundamentalism that swept away the nations of the twenty-first century. Yet to George, Illyria's militant rationalism is as stifling as the faith-based superstition that dominates the world outside its walls. For George has fallen in love with Lucy. A prostitute. A robot. She might be a machine, but the semblance of life is perfect. To the city authorities, robot sentience is a malfunction, curable by erasing and resetting silicon minds. But George knows that Lucy is something more. His only alternative is to flee Illyria, taking Lucy deep into the religious Outlands where she must pass as human because robots are seen as mockeries of God, burned at the stake, dismembered, crucified. Their odyssey leads them through betrayal, war and madness, ending only at the monastery of the Holy Machine...

Introducing one of Europe's most widely popular detective series Wanting out of high-stress detective work, Simon Brenner takes a calming job as a chauffeur, shuttling a two-year-old girl back and forth in a soothing ride along the Autobahn between her father, a construction tycoon in Munich, and her mother, an abortion doctor in Vienna. Except then one day he stops at a gas station to buy the little girl a chocolate bar and comes back to find she's been kidnapped . . . and suddenly he's out of a job, thoroughly stressed out, and a detective again. With no shortage of leads—both the father's latest development and the mother's clinic are under siege by protestors—Brenner makes his way through a powerful cast of characters and a growing pile of bodies to solve the crime in the only way he knows how: By being in precisely the right place at the worst possible time. Told with sharp-edged wit, suspense that's even sharper, and one of the most quirky, hilarious, and compelling narrative voices ever.
