The Encyclopedia of Italian Literary Studies is a two-volume reference book containing some 600 entries on all aspects of Italian literary culture. It includes analytical essays on authors and works, from the most important figures of Italian literature to little known authors and works that are influential to the field. The Encyclopedia is distinguished by substantial articles on critics, themes, genres, schools, historical surveys, and other topics related to the overall subject of Italian literary studies. The Encyclopedia also includes writers and subjects of contemporary interest, such as those relating to journalism, film, media, children's literature, food and vernacular literatures. Entries consist of an essay on the topic and a bibliographic portion listing works for further reading, and, in the case of entries on individuals, a brief biographical paragraph and list of works by the person. It will be useful to people without specialized knowledge of Italian literature as well as to scholars.

Italian theater brings early on stage some of the most signifi cant productions of the 20th century, with major playwrights holding a pivotal role in the renewal of the European stage: Gabriele D'Annunzio, Eduardo De Filippo, Dario Fo, Luigi Chiarelli, Luigi Antonelli, Rosso di San Secondo, Enrico Cavacchioli, Massimo Bontempelli, Dacia Maraini, Ugo Betti, Diego Fabbri, thanks to such innovative movements from the early century called grotteschi and futuristi. If the early Pirandellian plays are added, we will have a comprehensive view of twentieth century theater, and the weight it will carry upon the coming generations.

This title is a collection of contributions illustrating research interests and achievements in translation studies at the turn of the 21st century. The contributions show how the context of translation has expanded to cover documentation techniques, cultural and psychological factors, computer tools, ideological issues, media translation and methodologies. A total of 32 papers deal with aspects such as conceptual analysis in translation studies, situational, sociological and political factors, and psychological and cognitive aspects of translation.

"The Nativity Scene imparts insights into why millions of immigrants left Italy and established their presepe (Christmas cribs) elsewhere, in the new Promised Land . . . Through the image of the presepe, The Nativity Scene presents a dramatic debate over the place and significance of Italy's rich and powerful iconic heritage, and the myths and rituals attendant upon it as shapers of social life"--Publisher's website.

"The central importance of the actor-author is a distinctive feature of Italian theatrical life, in all its eclectic range of regional cultures and artistic traditions. The fascination of the figure is that he or she stands on both sides of one of theatre's most important power relationships: between the exhilarating freedom of performance and the austere restriction of authorship and the written text. This broad-ranging volume brings together critical essays on the role of the actor-author, spanning the period from the Renaissance to the fashionable 'narrative theatre', where the actor-author is centre stage in a solo performance."

The idea of the "mamma italiana" is one of the most widespread and recognizable stereotypes in perceptions of Italian national character both within and beyond Italy. This figure makes frequent appearances in jokes and other forms of popular culture, but it has also been seen as shaping the lived experience of modern-day Italians of both sexes, as well as influencing perceptions of Italy in the wider world. This interdisciplinary collection examines the invented tradition of mammismo but also contextualizes it by discussing other, often contrasting, ways in which the role of mothers, and the mother-son relationship, have been understood and resexed in culture and society over the last century and a half, both in Italy and in its diaspora.

A history of Italian theatre from its origins to the the time of this book's publication in 2006. The text discusses the impact of all the elements and figures integral to the collaborative process of theatre-making. The distinctive nature of Italian theatre is expressed in the individual chapters by highly regarded international scholars.

This is the first comprehensive reference work in English dedicated to the writing of world-famous Italian mystery writer Andrea Camilleri. It includes entries on plots, characters, dates, literary motifs, and themes from the bestselling author's detective stories and television crime dramas, with special attention given to the serialized policeman Inspector Salvo Montalbano, Camilleri's most famous character. It also equips the reader with background information on Camilleri's life and career and provides a guide to the writings of reviewers and critics.

For any play originating in a different culture and society to be favourably received in English translation, timing and other factors of reception are often as important as the purely linguistic aspects. This book focuses on the problems of reception and translation into English encountered by European playwrights now regularly staged at British theatres, such as Ibsen, Strindberg, Chekhov, Brecht, Anouilh, Lorca and Pirandello, among others. Introduced by discussions highlighting different approaches to translation in general and the difficulties inherent in the translation of drama in particular, the book concludes by looking at what is lost in translation and the means by which adaptions and new versions may help to restore the balance.

This volume brings together specialists from a variety of disciplines to develop a deeper understanding of the social, political, and cultural history of women in Italy in the years 1946-1960. Despite being a time when women and the family were at the center of national debates, and when society changed considerably, the fifteen years following the Second World War have tended to be overlooked or subsumed into discussions of other periods. By focusing on the experience of women and by broadening the frame of reference to include subjects and sources often ignored, or only alluded to, by traditional analyses, the essays in this volume break new ground and provide a corrective to previous interpretive models.

Plays by one of Italy's greatest dramatists Eduardo de Filippo was one of Italy's leading popular dramatists, a fearless social critic, a supreme man of the theatre, and a humane and compassionate writer. The four plays in this volume present different facets of his prolific output, which focused on the lives of the Neapolitan people, their dubious cunning nourished by centuries of hunger, their fantasies and their love of life. The Local Authority, Grand Magic and Filumena Marturano are translated by Carlo Arditto, and Napoli Milionaria was translated by Peter Tinniswood for the Royal National Theatre's production in 1991.

With nearly 400 scores to his credit, Ennio Moricone is one of the most prolific and influential film composers working today. In Composing for the Cinema, Moricone and musicologist Sergio Miceli present a series of lectures on the composition and analysis of film music. Adapted from several lectures and seminars, these lessons show how sound design can be analyzed and offer a variety of musical solutions to many different kinds of film. Drawing upon scores by himself and others, the composer also provides insight into his relationships with many of the directors with whom he has collaborated, including Sergio Leone, Giuseppe Tornatore, Franco Zeffirelli, Warren Beatty, Ridley Scott, Roland Joffé, the Taviani Brothers, and others. Delivered in a conversational mode that is both comprehensible and interesting, this groundbreaking work intertwines analysis with practical details of film music composition.

In a world that tends to homologate, thus becoming, in every aspect of our lives, grey, flat and uniform, so creating the world of universal similarity (including language), does it still make sense today to talk about vernacular theatre? Tackling such a question implies uncovering the reasons for the disappearance of the many regional theatres that were present in Italy in the nineteenth century. There is no doubt that first the unification of the country in 1861, and then the language policies of fascism in the ' 30s were the final nails in the coffin for local theatres. It is also true, however, that what really determined their downsizing was the progressive loss of connection with their own environment. If we give an essentially superficial interpretation to the adjective " vernacular ", and in a play we see a canovaccio (plot) that the local star uses as a vehicle to show his talent through a series of modest mannerisms, then " vernacular " implies the death certificate of this type of theatre (once the star dies, his alleged dramaturgy dies with him and his mannerisms). On the contrary, if we identify in this adjective the theatre ' s healthy attempt to develop a local, social and cultural analysis of its environment, it opens a whole new meaning and acquires a perspective that a national theatre can never aspire to. This is the case of Neapolitan theatre. It managed to survive and thrive, producing plays that were capable of critically describing modern and contemporary reality.

Neapolitan playwrights forcefully proclaimed their roots as a primary source for their work. The city, in fact, became a direct expression of that cultural microcosm which provided them with the living flesh of their plots.

This volume includes contributions on dialect translation as well as other studies concerned with the problems facing the translator in bridging cultural divides.

This collection of essays investigates the terminology of traditional Neapolitan arts and crafts analyzed from a novel linguistic and cultural perspective. With some exceptions, the trades examined in the contributions—including pizza and pastry making, the art of presepio (crib), lute-making and coral dealing, among others—still exist in Naples and in the Campania region. They represent an important component of the cultural heritage of the area that this volume brings to light by furthering current research in the fields of terminology, history and cultural anthropology. The book is divided into two sections, corresponding to the two languages in which the articles are written (English and French), although the terminological analyses also focus on Italian, Neapolitan and Spanish. This choice is expressly demanded by the political legacy of Naples, which for six centuries was alternately dominated by French, Spanish and Austrian rulers whose lasting influence on the city's traditions and language the essays explore.

The Theory and Praxis of Music in Film

Italian novelist, poet, and filmmaker Pier Paolo Pasolini was brutally killed in Rome in 1975, a macabre end to a career that often explored humanity's capacity for violence and cruelty. Along with the mystery of his murderer's identity, Pasolini left behind a controversial but acclaimed oeuvre as well as a final quartet of beguiling projects that signaled a radical change in his aesthetics and view of reality. The Resurrection of the Body is an original and compelling interpretation of these final works: the screenplay Saint Paul, the scenario for Pom-Theo-Colossal, the immense and unfinished novel Petrolio, and his notorious final film, Salò or the 120 Days of Sodom, a disturbing adaptation of the writings of the Marquis de Sade. Together these works, Armando Maggi contends, reveal Pasolini's obsession with sodomy and its role within his apocalyptic view of Western society. One of the first studies to explore the ramifications of Pasolini's homosexuality, The Resurrection of the Body also breaks new ground by putting his work into fruitful conversation with an array of other thinkers such as Freud, Stindberg, Swift, Henri Michaux, and Norman O. Brown.

Does our personality originate in our mothers' womb? Are our most ingrained fears set off by their heartbeat as we pick up their apprehensions and fears? This is a journey through Lorenzo Cardona's teenage years, plagued by a deeply entrenched insecurity; his fear of rejection; of being the eternal unwanted creature. His struggle to build an identity in the harsh reality of small village life, in the heart of the South Italian peninsula: where conformity is the verb. Lorenzo's fear of rejection a close scrutiny of his recurrent childhood dream of drowning in dark agitated waters, appears to have its origin as far back as his mother's womb, as the love life of mother and son appear to be intertwined by a common destiny of emotional failure, in the apotheosis of the inescapable truth that there is no absconding from our biological fate, that our umbilical cord is eternal, nourishing us long after being severed. REVIEW A highly entertaining and witty novel - with universal appeal, where the supremacy of the love theme is mitigated by the light hearted tales of local myth, touching premises such as love, jealousy, gossip and senseless rivalry, served on a plate of typical and unique Mediterranean folklore told by the powerful voice of autobiographical narrative.
